

Australia Down Under

QUICK FACTS

\$5580

ADU11 June 5–June 29 (25 days) (10,11,12)

ADU21 July 2–July 26 (25 days) (10,11,12)

Arv/dpt: Brisbane (BNE) / Cairns (CNS)
Group flight from LA

16-18 dives

Prereq: OW/referral

Certs: OW, AOW, UW Naturalist

10 Service hours

hiking, camping, rafting, surfing, kayaking,
diving, snorkeling

OVERVIEW

This trip is action packed and a great choice for students wanting a ton of activities – hiking, camping, rafting, surfing, kayaking, diving, and snorkeling. We go off the beaten path, while still managing to see 4 world heritage sites. Every year our staff debate what the coolest thing about this trip is – white sand beaches perfect for surfing, camping on the largest sand island in the world (Fraser Island), the Outback with Ayers Rock, The Olgas, Kings Canyon and the incredible starry nights or their time on the Undersea Explorer which is like living in a National Geographic documentary.

TO CONSIDER

- ▶ We have a unique relationships with locals outfitters

that allows us to visit and interact with the country in a way that no other program like this can offer. For example Undersea Explore is not just diving but living on a real research vessel with scientist who are studying reef sharks and Minke whales. When we travel to Fraser Island we are not part of a big tour with a set schedule, but we have our own 4wd vehicles and are free to make our own adventure.
