

Task: Create a PSD based on the sample below. This will be used as a DVD Menu

1. Overall image dimension: 720 X 480
2. Use the logo provided
3. Since the logo is not transparent, make the background of the whole image to match the white in the background on the logo. Thus, the whole image is white. This is essential that there is no difference between the background of the menu and the background of the logo.
4. Be sure to include the text “Aspen Education Group” on the left and the PLAY text below the logo.
5. Please try to make the logo show as crisp and as clear as possible. Right now, it appears to be a bit fuzzy.

480

720
