

Graphics Design

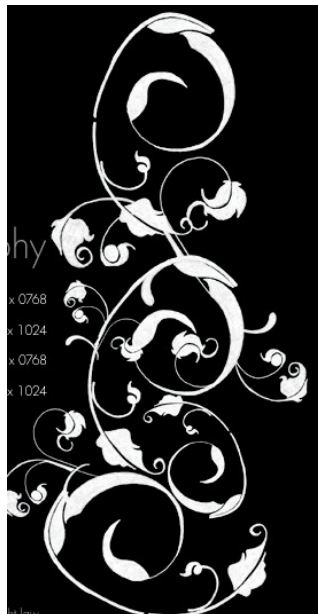

Claire Nicholson Interior Design

by QuickSilver Creations Ltd

We are looking for a graphics designer to design a logo for an interior design company and the theme for the company's website.

1. Logo Design

The client would like the logo to be inspired by the theme on the website www.larajade.com

Leaf Design

The client would like something similar to the 'leaf' design on the index page (shown above), and would ideally like the background to be black, 'Claire Nicholson' to be in white, and 'Interior Design' to be in grey. The text on the logo should read:

"Claire Nicholson
Interior Design"

The logo needs to be created in vector format as it will be used for print. The client would like the logo to be based on the logo featured on the above mentioned website. The website should be used for inspiration only, copyright of the existing site applies.

We require 3 initial concepts for the logo, each based on the requirements above - it is up to the designer to vary the designs accordingly. From these concepts one will be chosen which will be delivered in vector format and used to create the theme for the website.

Adjustments may be necessary before client is satisfied with design, this must be allowed for in the budget.

2. Website Theme Design

We require a theme which will incorporate the new logo and base the design around it. The client would like the theme to be inspired by www.larajade.com, but *without* flash. The client likes the 'wallpaper effect' and fade on the initial splash page and would like to base their main page on this, with the logo and an 'Enter' link on the page.

The client would like the design to be similar to the above site, but without the dual scroll bars as they are unnecessary.

The pages that will be included in the final website are:

- About
- Portfolio
- News
- FAQ
- Contact

Please include an example of the **splash page** and **news page only**.

Adjustments may be necessary before client is satisfied with design, this must be allowed for in the budget.

Please state in your bid the format that the website will be delivered in. Any bids that do not state this will be disregarded as it will show they have not read the specification in full.

Please also give relevant examples of your work.

Many thanks for bidding, we look forward to working with you.
