

JAGUAR MARKETING SYSTEM

Jaguar was in its pre-launch phase in 2006. It was formally launched on September 1, 2006. Ever since then it has recorded steady growth. In 2007, sales exploded. Now in 2008, it is rapidly approaching the #1, fastest growing opportunities. The reason is not only the appeal of earning a \$3,000 profit per sale, but the vast amount of products, training and support that the members have at their fingertips.

Jaguar has been absolutely proven to work. Jaguar has unmatched, ongoing training that is second to none. The training alone is easily worth the price of the package. Jaguar is constantly adding new Products and upgrades to the package that are absolutely free to members for life. These are not just little tweaks here and there. These are major additions that continually assist in helping business owners make their Jaguar business successful. One of the newest upgrades is the \$10K Per Week Program. This is a phenomenal business building tool. Another recent addition is called "Why Start". This free tool helps point traffic to the business owner's Jaguar site.
