Size: _____ ft Length _____ ft Width

Your Price is \$ _____

Simple Calculator...

a, b, or c is one button only select must select one.
the price for a is \$1.75, b is \$3.00 c is \$4.00

Then a, b, or c, is times the total of length x width =
\$00.00

example 2ftx6ft x \$1.75 = \$21.00

If you use html code I can change prices easy

Update button is a button you make to update price if
they make a change.

a,b, and c are bullets they can click on.
